

Tareq Sabra

Full Stack Engineer | React, TypeScript Python

tareqjammal98@gmail.com | +970597343672

linkedin.com/in/tareq-sabra

Profile

Full Stack Engineer with 5+ years of experience building and delivering production-grade web applications across frontend and backend systems. Strong expertise in React, TypeScript, and modern frontend architecture, with hands-on experience contributing to Python backend services, API development, database migrations, and AI-enabled applications. Experienced owning features end-to-end, collaborating across product and engineering teams, and delivering scalable, maintainable software in fast-paced environments.

Education

Computer Engineering An-Najah National University - ABET certified university

2016 – 2021

Professional Experience

Front-End Engineer AUI (Augmented Intelligence)

05/2024 – Present

- Refactored UI components using best practices and caused a time by 20% performance uplift and 15% improvement in Web Vitals metrics.
- Designed and delivered AI-powered product features using React and TypeScript.
- Integrated LLM-powered capabilities including RAG workflows and conversational AI experiences.
- Built real-time interfaces supporting streaming responses via WebSockets.
- Collaborated closely with backend and AI teams integrating model APIs, retrieval pipelines, and inference services.
- Architected reusable component systems supporting dynamic and AI-generated content.
- Owned user-facing features from implementation through production release.
- Improved application responsiveness through state management optimization using Zustand and Jotai.
- Leveraged AI-assisted development workflows to accelerate feature delivery while maintaining code quality and maintainability.

Fullstack Engineer - Front-End focus Asal Technologies / Ride with Via

10/2021 – 05/2024

- Developed scalable applications within a Micro-Frontend architecture.
- Built reusable React component libraries and shared UI modules used across multiple applications.
- Contributed to backend services using Python, FastAPI, SQLAlchemy, and Alembic.
- Participated in API development, backend integrations, and database migration workflows.
- Implemented unit testing to improve application reliability and maintainability.
- Built and maintained GitLab CI/CD pipelines for automated linting and testing.
- Optimized frontend rendering performance and application responsiveness.
- Collaborated across frontend and backend teams to deliver production-ready features.

Technical Skills

Frontend: React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Component Architecture, Micro-Frontends

State Management: Redux, Zustand, Jotai

Backend: Python, FastAPI, REST APIs, SQLAlchemy, Alembic

Data: Database Migrations, API Integration

AI Real-Time: RAG Workflows, LLM Integration, Streaming Responses, WebSockets

Testing Delivery: Unit Testing, GitLab CI/CD, Git, Performance Optimization

Languages

○ Arabic — Native

○ English — Professional Working Proficiency
