

Tareq Sabra

Software Engineer — Frontend Engineer — React — AI-Enabled Web Applications

tareqjammal98@gmail.com — 0597343672

Profile

Front-End Engineer with 5+ years of experience building scalable, product-focused React applications. Strong ownership of features end-to-end, translating product requirements into performant user experiences. Experienced integrating AI capabilities including RAG workflows, real-time streaming responses, and WebSocket-based conversational interfaces. Uses AI-assisted development workflows to accelerate delivery while maintaining high standards of performance, code quality, and maintainability.

Areas of Expertise

Frontend Engineering • React Ecosystem • Component Architecture • Micro-Frontends • AI Integration (RAG, Streaming, WebSockets) • API Integration • Performance Optimization • TypeScript & Modern JavaScript • Testing (Unit & E2E) • AI-Assisted Development • Responsive Design • Git & Collaboration

Professional Experience

Front-End Engineer

AUI (Augmented Intelligence)

05/2024 – 05/2026

- Built scalable React interfaces powering AI-driven product workflows.
- Integrated LLM-based features including RAG experiences and AI-assisted interactions.
- Implemented real-time streaming responses and conversational UI using WebSockets.
- Collaborated with backend and AI teams integrating model APIs and retrieval pipelines.
- Designed reusable component architecture supporting AI-generated content.
- Applied AI-assisted development workflows to accelerate delivery without sacrificing quality.
- Managed state using Jotai and Zustand while optimizing React performance.

Front-End Engineer

Asal Technologies / Ride with Via

10/2021 – 05/2024

- Developed scalable applications within Micro-Frontend architecture.
- Built reusable React components and shared UI modules.
- Implemented unit testing ensuring reliability and maintainability.
- Managed application state using Redux.
- Optimized frontend performance and rendering efficiency.
- Built GitLab CI/CD pipelines for automated linting and testing.
- Contributed to backend services using Python, FastAPI, SQLAlchemy, and Alembic.

Education

Computer Engineering

An-Najah National University

2016 – 2021
